Experience

Frontend Developer (Full-Time) – CSR Electronologies, Warangal

Apr 2024 – Nov 2024 | Built **Park and Go** with React.js, OTP login, Maps & Razorpay. Also developed **Park&GO Slider** UI & WebSocket server for real-time slot display on large LED screens.

Software Developer (Full-Time) – Chatrapathi Greentech Softwares Private Limited(Remote), Andhra Pradesh

Dec 2024 – Present | Working on an XML-based digitization project. Tagging book content like authors, references, URLs, and pages in .txt files, converting them to .dat, checking for errors, and submitting complete structured files for digital publishing.

Freelancer

- **PAT IoT Solutions** – Developed a **business portfolio website** for the company.
- **Personal Portfolio Website** – Created a **personal portfolio website** for a client.

Projects

Park and Go | React.js, CSS, Google Maps API, Razorpay

An application for booking parking slots with secure OTP authentication, real-time slot updates, and payments via Razorpay.

Movies App with Alan AI Application | React.js, Alan AI, TMDB API, CSS

A movie browsing app integrated with **Alan AI** for voice commands. Users can search and watch trailers of the latest movies using the **TMDB API**.

Face Detection Web Application | React.js, CSS, Node.js, Express.js, PostgreSQL, Face Detection API

A face recognition app where users upload images for face detection with user registration and secure login/logout.

Tailoring Website with AI Support (In Progress) | React.js, Tailwind CSS, AI APIs for design and 3D conversion

Developing a custom web app for my father's tailoring business:

- **AI-powered blouse design generation** based on user input and image upload.
- **3D rendering** of designs for realistic previews.
- Key pages: **Home, Services, Contact, About, Gallery, Measurement Guide.**
- Upcoming features: **User Authentication** (Sign In/Sign Out/Register) and **Online Service Ordering.**

Portfolio | React.js, Tailwind CSS

<https://vineethkumar.csre.in>

A modern digital resume showcasing my projects and skills, developed using **React.js** and **Tailwind CSS**.
